

What to Expect on Your Second Visit

Second Visit

On your second visit expect to spend about 90 minutes with us.

The second visit is called the 'Report of Findings' visit. We will explain what we found on your x-rays and examination and let you know if we can help you, how long it will take, how often you will need to come in and explain our affordable payment plans.

If the doctor believes that you can benefit from chiropractic care, you will receive your first adjustment during this visit.
